Glisto

Reduced Glutathion 500mg

Glisto Features:

To see visible result in shortest time, taking the right dose according to your body weight is necessary. For an adult with a body mass of 50kg has to take 500mg daily dose of glutamine (in tow equal doses). With this, you'll start seeing result in the first 2-3 weeks. Any one with a body mass higher than that can either take a higher dose using the formula of 20mg/kg (for someone with 75kg weight will take 1500mg or equal to 3 tablets of Glisto) or wait for a little longer to see visible results (like a month).
